SURGICAL SPECIALTIES & CLINICAL EXPERTISE

Acoustic Neuromas / Vestibular
Schwannomas

Acromegaly

Brain Metastases

Brain Tumors in Adults

Brainstem Gliomas

Craniopharyngiomas

Cushing's Disease

Glioblastoma Multiforme (GBM)

Idiopathic Intracranial Hypertension (IIH)

Low-grade Gliomas

Meningioma

Neurofibromatosis (NF1 and NF2)

Orbital Tumors

Pituitary Tumors

Schwannomas

Sinonasal Malignancies

Skull base Tumors

Dr. Rohan Ramakrishna is an award-winning neurosurgeon who specializes in the treatment of brain tumors and other central nervous system tumors.

Dr. Ramakrishna treats patients with gliomas, metastatic disease, skull base lesions, and pituitary disorders. He employs advanced awake mapping, imaging techniques, and microsurgery to ensure maximal tumor removal and achieve the safest possible surgical outcomes. Furthermore, Dr. Ramakrishna works with a multi-disciplinary team to ensure that the best possible treatment strategies are offered to his patients. He sees patients at the Brain Tumor Center at New York Presbyterian/Weill Cornell Medical Center as part of the surgical neuro-oncology team.

TRAINING

Dr. Ramakrishna received his Bachelor of Arts from the University of Pennsylvania, majoring in Biology and Philosophy, and was elected to the Phi Beta Kappa society upon graduation. He obtained his medical degree from

the University of Pennsylvania. Dr. Ramakrishna completed his neurosurgery residency and served as chief resident at the University of Washington. He then went on to complete a fellowship in neurosurgical oncology at the MD Anderson Cancer Center in Houston, Texas.

RESEARCH

Dr. Ramakrishna's research interests include novel drug delivery strategies to treat malignant brain and skull base tumors using advanced polymer and nanoparticle technology. Additionally, Dr. Ramakrishna is interested in developing new vaccine-based therapies for glioma and in helping to develop new clinical trials and outcome measures to advance the care of brain tumors. He has published and spoken extensively on these topics and has received multiple awards, including prestigious training and research grants from the NIH and the Fred Hutchinson Cancer Consortium.

CLINICAL LOCATION

NewYork-Presbyterian/Weill Cornell
1305 York Avenue, 9th floor (at 70th Street)
New York, NY 10021

Weill Cornell Medicine

New York-Presbyterian

Weill Cornell Medicine
Brain and Spine Center
Weill Cornell Medicine
Starr Pavilion, Suite 651
525 E. 68th St., Box 99
New York, NY 10065
